Background image :

About section : I am a passionate and motivated Engineering graduate actively seeking entry-level opportunities in DevOps, Cloud, and System Automation roles. With a strong foundational understanding of Linux,

AWS, CI/CD pipelines, Docker, and Git, I am eager to contribute to real-world DevOps environments and continuously grow my technical skill set.

I have completed certifications like NPTEL Cloud Computing and worked on hands-on projects that include deploying applications on cloud platforms, automating workflows, and understanding infrastructure-as-code tools.

With a commitment to continuous improvement, I stay updated on the latest trends and methodologies in education and By integrating

innovative training strategies and real-world applications, I strive to make learning engaging,
practical, and impactful.

I am open to internships, trainee roles, or junior DevOps Engineer positions where I can contribute, collaborate, and continue learning in a dynamic team.
